

## **Published Research:**

This is not a definitive list of publications, but aims to provide an introduction to this field of research.

### **Reviews**

- 1. Supportive and palliative care in people with cirrhosis: international systematic review of the perspective of patients, family members and health professionals**

Low J, et al. Journal of Hepatology. 2018. <https://doi.org/10.1016/j.jhep.2018.08.028>

- 2. Symptom prevalence and quality of life of patients with end-stage liver disease: A systematic review and meta-analysis.**

Peng, JK et al. Palliative Medicine. 2018. <https://doi.org/10.1177/0269216318807051>

- 3. Palliative Care and Hospice Interventions in Decompensated Cirrhosis and Hepatocellular Carcinoma: A Rapid Review of Literature**

Mudumbi SK, et al. Journal of Palliative Medicine. 2018. <https://doi.org/10.1089/jpm.2017.0656>

- 4. Palliative care in decompensated cirrhosis: A review**

Langberg KM, et al. Liver International. 2018. <https://doi.org/10.1111/liv.13620>

### **Palliative care in liver disease**

- 1. Palliative care for people with advanced liver disease: A feasibility trial of a supportive care liver nurse specialist.**

Kimball B, et al. Palliative Medicine. 2018. <https://doi.org/10.1177/0269216318760441>

- 2. The incompatibility of healthcare services and end-of-life needs in advanced liver disease: A qualitative interview study of patients and bereaved carers.**

Hudson B, et al. Palliative Medicine. 2018. <https://doi.org/10.1177/0269216318756222>

- 3. Cirrhosis with ascites in the last year of life: a nationwide analysis of factors shaping costs, health-care use, and place of death in England.**

Hudson B, et al. The Lancet Gastroenterology & Hepatology. 2017.

[https://doi.org/10.1016/S2468-1253\(17\)30362-X](https://doi.org/10.1016/S2468-1253(17)30362-X)

- 4. Exploratory study into the unmet supportive needs of people diagnosed with cirrhosis in Queensland, Australia**

Valery P.C, et al. Internal Medicine Journal. 2017. <https://doi.org/10.1111/imj.13380>

- 5. Palliative Care and Health Care Utilization for Patients With End-Stage Liver Disease at the End of Life**

Patel A.A, et al. Clinical Gastroenterology and Hepatology. 2017. <https://doi.org/10.1016/j.cgh.2017.01.030>

- 6. Advanced chronic liver disease in the last year of life: a mixed methods study to understand how care in a specialist liver unit could be improved**

Low J, et al. BMJ Open. 2017. <http://dx.doi.org/10.1136/bmjopen-2017-016887>

- 7. Palliative care for cirrhosis: a UK survey of health professionals' perceptions, current practice and future needs.**

Low J, et al. Frontline Gastroenterology. 2016. <http://dx.doi.org/10.1136/flgastro-2015-100613>

- 8. Use of Palliative Care Consultation for Patients with End-Stage Liver Disease: Survey of Liver Transplant Service Providers.**

Beck K.R, et al. Journal of Palliative Medicine. 2016. <https://doi.org/10.1089/jpm.2016.0002>

- 9. Managing uncertainty in advanced liver disease: a qualitative, multiperspective, serial interview study.**

Kimbell B, et al. BMJ Open. 2015. <http://dx.doi.org/10.1136/bmjopen-2015-009241>

- 10. Benefit of Early Palliative Care Intervention in End-Stage Liver Disease Patients Awaiting Liver Transplantation.**

Baumann AJ, et al. Journal of Pain and Symptom Management. 2015.

<https://doi.org/10.1016/j.jpainsymman.2015.07.014>

- 11. What is the patient experience in advanced liver disease? A scoping review of the literature.**

Kimbell B, et al. BMJ Supportive & Palliative Care. 2015. <http://dx.doi.org/10.1136/bmjspcare-2012-000435>

- 12. Patients With Cirrhosis and Denied Liver Transplants Rarely Receive Adequate Palliative Care or Appropriate Management**

Poonja Z, et al. Clinical Gastroenterology and Hepatology. 2014. <https://doi.org/10.1016/j.cgh.2013.08.027>

### Prognostic Screening Tools

- 1. Integration of palliative and supportive care in the management of advanced liver disease: development and evaluation of a prognostic screening tool and supportive care intervention.**

Hudson BE, et al. Frontline Gastroenterology. 2017.

<http://dx.doi.org/10.1136/flgastro-2016-100734>

- 2. Development and evaluation of the Supportive and Palliative Care Indicators Tool (SPICT): a mixed-methods study.**

Highet G, et al. BMJ Supportive and Palliative Care. 2014. <http://dx.doi.org/10.1136/bmjspcare-2013-000488>
