

Public & Patient Involvement/Engagement

Laura Chapman (BRC PPIE Manager)

Mandy Lomax (Patient Research Ambassador)

Definition of Public & Patient Involvement and Engagement (PPIE)

- **Involvement**

Active involvement between people who use services, carers and researchers. Research done **with** or **by** people who use services rather than to, about or for them. Can happen in all parts of research cycle.

- **Participation**

People are research participants/‘subjects’ taking part in research (trials, surveys, etc).

- **Engagement**

Information and knowledge about research is provided and shared with peers and the public at large.

What the patient experience adds

- Value
- Insight
- Recognition
- Legitimacy

My experience

- Sent home to die
- Long term complications now
- TIPPs procedure saved me!
- How do we ensure everyone knows?

Working together

Alone we can do so little. Together we can do so much.
